# Business Insights – Task 1

1. **Overall Sales Performance**
   The business generated ₹15,65,804.32 in total sales and ₹1,75,262.11 in total profit from 3,003 orders. Overall performance indicates positive sales and profitability.
2. **Regional Performance**
   Sales vary across the four regions — West, East, Central, and South. High-performing regions should be prioritized for expansion, while lower-performing regions can be targeted with focused marketing strategies.
3. **Category Performance**
   The business operates across Furniture, Office Supplies, and Technology. Category-wise analysis helps identify the products contributing most to revenue and supports better inventory and promotional decisions.
4. **Customer Performance**
   The Top 10 Customers contribute significantly to sales. High-value customers should be retained through better service, loyalty programs, and personalized offers.
5. **Sales Trend**
   The monthly sales trend helps identify changes in demand over time. These patterns can support inventory planning, promotions, staffing, and sales forecasting.
6. **Recommendations**
   - Focus on high-performing regions and categories.
   - Improve marketing in weaker regions.
   - Retain high-value customers through loyalty initiatives.
   - Use monthly sales trends for inventory planning.
   - Monitor profit along with sales.
